

# Land Of Forgotten Dreams (Part I)

Highland Glory

Welcome take a hold of my hand  
I'll take you to a far away land  
Inside your fantasies  
Places beyond reality

Just leave your life behind  
And follow the wizards sign  
You can see it flashing over the skies  
In a place where you will never die

[Bridge:]

So come follow me  
And I'll let you see  
There are things in our dreams  
That with faith become real

[Chorus:]

There is magic in our hearts  
There is magic in our dreams  
Just let yourself go  
Let your powers flow  
In the land of forgotten dreams  
There are darkness in our hearts  
There are darkness in our dreams  
Just let yourself go  
Let your powers flow  
In the land of forgotten dreams

Don't be afraid to show your fear  
Some frightening voices you will hear  
But you never again will see  
What you call reality

To this dreamland we have come  
To make all darkness be undone  
Pain and suffering will all end  
We are forever here

[Bridge]

[Chorus]

On the wings of fantasy we will ride  
To a land of faith and a land of light  
To the land of darkness and hate we have come  
We will never go home  
You know this place  
You've seen it before  
Take your step and enter the door  
To the land of forgotten dreams we have come  
We will never go home

[Chorus]

Don't be afraid to go  
Into the land of forgotten dreams  
Don't be afraid to go

Into the land of forgotten dreams  
Oh, don't be afraid to go  
Into the land of forgotten dreams  
Don't be afraid to go  
Into the land of forgotten dreams
