

### Spirit Of Salvation

Try to find my way, try to find my way  
Try to find my way, try to find my way

Take me there, led me to the underworld  
I can't bear to see your face again  
Now I'm here to meet my destiny  
Now I'm here, lost inside this atmosphere  
And I can't see the truth within my soul  
Is this a dream or just reality?

Oh yes we are the spirit of salvation  
Over the sea and under the mountain  
Trying to find the way  
Help me, lead me, show me, guide me  
Trying to find my way

Still I'm scared, will I fade into infinity?  
Behind my mask, reality appears  
Will you see my true identity?  
I cry help the spirits are gone, nothing can save me  
Pray for me, my soul and my rebirth  
Will there ever be a change for me?

If you help me just to see the light  
Help me to make it right  
I will be grateful to you  
Oh I'm praying to get through the light  
To make it through this night  
I have to follow my path

I need to find my way back there
