

## The Sacrifice

## Highland Glory

I can see the wrongs that I have done  
In this life or the next  
My demons will be gone  
Thinking through the crimes of my past life  
The people that's been hurt  
Wrong thinks that can be right

You can be good, free your soul, let it go...

In my dreams I have seen  
The damnation become real  
Without love or a heart  
No life could ever start  
Emptiness is what you'd find in me

If I stop and listen for awhile  
The words may sound so right  
My soul might still be saved  
I can hear she's talking to me now  
Her voice is far away  
Her warmth is always near

You can be good... I can be good  
Free your soul... Can't free my soul  
Let it go... Can't let it go

I can hear she's talking to me now  
Her voice is far away  
Her warmth is always near  
I can see the wrongs that I have done  
In this life or the next, my demons will be gone
