Breath Of Eternity

Have u seen the world doesn't care of your life.. Try to realize we're such a small part in the Divine-mind... There are so many places and I just want to be there.... Just take my breath of eternity So many times I have tried to see through the dark realms of my....fantasy How many times have I said I won't fall and then stand back on...a senseless road

I am sure we have to preserve what we have inside... We have the power and we just don't know how to get control There are so many places and I just want to be there... Just take my breath of eternity So many times I have tried to see through the dark realms of my....fantasy How many times have I said I won't fall and then stand back on...a senseless road

So far but so close I remain here alone... just take my part on this eternity...
