

# Between You and Me

Hilary Duff

You can call it what you want  
But I'm not playing games  
We're both apart of the same story  
Not on the same page  
And I see you standing there  
With that dirty little stare  
Well it freaks me out inside  
So maybe you should just beware

[Chorus]

My love is not up for negotiation  
Hello doesn't mean an open invitation  
Don't take it personally 'cause  
You and me we're wrong  
So move on  
Move on  
Move on

Now I'm not saying you're not nice  
Let me give you some advice  
There's a girl across the room  
Who'd kill to be with you tonight  
She's been looking over here  
And she's made it pretty clear  
So don't lose your chance with her by trying to get so damn near  
r me

[Repeat Chorus]

Oh here he comes  
He never gets the hints  
Never gets the hints  
That I've given him  
Oh there he goes  
He's never gonna win  
Never gonna win  
He doesn't even know who he's trying to get with

[Repeat Chorus]

Move on  
Move on  
Move on
