

# Jericho

Hilary Duff

Hop on a fast train out of town  
Downside up and Upside down  
Going fast is going slow  
What could have been we'll never know  
In this place that has no name  
I can't remember why I came  
Then I hear you whisper low  
One more mile to Jericho  
Nothing is ever what it seems  
When you live inside your dreams

[Chorus:]

The walls will tumble  
the walls will tumble  
But I'm not gonna cry  
My heart wont crumble  
My heart wont crumble  
If we ever say goodbye

Everybody gets the joke  
Where's the fire?  
Where's the smoke?  
Money, love and jealousy  
Something's got a hold on me  
But I will follow where you go  
One more mile to Jericho

[Chorus:]

The walls will tumble  
the walls will tumble  
But I'm not gonna cry  
My heart wont crumble  
my heart wont crumble  
If we ever say goodbye

Goodbye now  
Goodbyeeeee

One more mile  
One more kiss  
One more word  
One more wish

And love will save us  
This I know  
From this place called Jericho

[Chorus]

The walls will tumble,  
the walls will tumble  
But I'm not gonna cry  
My heart wont crumble,  
my heart wont crumble  
If we ever say goodbye

The walls will tumble,  
the walls will tumble

But I'm not gonna cry  
My heart wont crumble,  
my heart wont crUMblee  
If we ever say goodbye

The walls will tumble,  
the walls will tumble  
If we ever say goodbye

The heart wont crumble,  
the heart wont crumble  
If we ever say goodbye

The walls will tumble,  
the walls will tumble  
If we ever say goodbye

My heart wont crumble,  
my heart wont crumble  
If we ever say good bye

Good Bye...
