Jericho

Hop on a fast train out of town Downside up and Upside down Going fast is going slow What could have been we'll never know In this place that has no name I can't remember why I came Then I hear you whisper low One more mile to Jericho Nothing is ever what it seems When you live inside your dreams [Chorus:] The walls will tumble the walls will tumble But I'm not gonna cry My heart wont crumble My heart wont crumble If we ever say goodbye Everybody gets the joke Where's the fire? Where's the smoke? Money, love and jealousy Something's got a hold on me But I will follow where you go One more mile to Jericho [Chorus:] The walls will tumble the walls will tumble But I'm not gonna cry My heart wont crumble my heart wont crumble If we ever say goodbye Goodbye now Goodbyeeeee One more mile One more kiss One more word One more wish And love will save us This I know From this place called Jericho [Chorus] The walls will tumble, the walls will tumble But I'm not gonna cry My heart wont crumble, my heart wont crumble If we ever say goodbye The walls will tumble, the walls will tumble

```
But I'm not gonna cry
My heart wont crumble,
my heart wont crUMblee
If we ever say goodbye
The walls will tumble,
the walls will tumble
If we ever say goodbye
The heart wont crumble,
the heart wont crumble
If we ever say goodbye
The walls will tumble,
the walls will tumble
If we ever say goodbye
My heart wont crumble,
my heart wont crumble
If we ever say good bye
```

Good Bye...
