## **Metamorphosis**

I've been so wrapped up in my warm cocoon But something's happening, things are changing soon I'm pushing the edge, I'm feeling it crack And once I get out, there's no turning back

Watching the butterfly go towards the sun I wonder what I will become

[Chorus:] Metamorphosis Whatever this is Whatever I'm going through Come on and give me a kiss Come on, I insist I'll be something new A metamorphosis

Things are different now when I walk by You start to sweat and you don't know why It gets me nervous but it makes me calm To see life all around me moving on

Watching the butterfly go towards the sun I wonder what I will become

[Chorus]

[Spoken:] Every day is a transformation Every day is a new sensation Alteration, modification An incarnation, celebration Every day is a new equation Every day is a revelation Information, Anticipation Onto another destination

[Chorus]
