

# Santa Claus Lane

Hilary Duff

I remember last Christmas Eve  
Something happened that I couldn't believe  
I went for a walk as the snow came down  
And when it stopped I was in a different town  
And the sign said have no fear; your not lost your here!

Walking this christmas  
Down santa claus lane  
No need to wonder  
No need to explain  
Just have some faith in what you see  
Your right here where you wanna be  
Walking this christmas  
Down santa claus lane

Elves were standing in the street  
Snow men and reindeer came out to greet  
Silver bells chimed from far away  
As santa rode by on an open sleigh  
And he told me have no fear  
Your not lost, your here!

Walking this christmas  
Down santa claus lane  
No need to wonder  
No need to explain  
Just have some faith in what you see  
Your right here where you wanna be  
Walking this christmas  
Down santa claus lane  
Down Santa Claus Lane

I don't know How  
I dont know when  
but one day  
I'll be back again

And he told me have no fear  
Your not lost your here

Walking this christmas  
Down santa claus lane  
No need to wonder  
No need to explain  
Just have some faith in what you see  
Your right here where you wanna be  
Walking this christmas  
Down santa claus lane
