Underneath This Smile

Hilary Duff

What I'm standing on is sinking in And I don't have a clue how to get off of it But when I look at you there is hope It's like you see the sadness in my eyes You read the blue between the lines You could be the one to hold me when I wanna cry Underneath this smile My world is slowly caving in All the while I'm hanging on Cause that is all I know Could you be the one to save me from every bad habit that has helped me dig this hole? I've been hiding out for miles Underneath this smile I have walked this earth with broken bones I've been keeping secrets under all these lights But when you're around my defenses go You don't let me run away from you You don't let me twist and turn the truth It feels as if I'm naked when you're standing in the room Underneath this smile My world is slowly caving in All the while I'm hanging on instead of letting go Could you be the one to save me from every bad habit that has helped me dig this hole? I've been hiding out for miles Underneath this smile Underneath this smile Oh, yeah Underneath this smile My world is slowly caving in All the while I'm hanging on instead of letting go Could you be the one to save me from every bad habit that has helped me dig this hole? Underneath this smile Could you be the one to save me from every bad habit that has helped

me dig this hole?
