

## Future Marches In

Hillsong United

Don't close your eyes because the night is dark  
Don't fear the future should it black the sun  
There's a hope burning brighter in a fearless love  
There's a brighter day  
There's a higher name

Don't hide in silence while the truth screams out  
Don't fear the future shaking up this ground  
There's a freedom that marches in a different sound  
So if you have the choice  
If you have the voice  
Then lift your voice and sing

If you have the breath, lift up your voice and sing  
If you have the heart, lift up your voice and sing  
If you have the faith, lift up your voice and sing  
If you have the love, now's the time to use it

Look back no further than the Saviour's cross  
Look to the future like the grave is lost  
There's a promise returning all the stolen years  
There's nothing left to fear  
Now the King is here  
So lift your voice and sing

If you have the breath, lift up your voice and sing  
If you have the heart, lift up your voice and sing  
If you have the faith, lift up your voice and sing  
If you have the love, now's the time to use it

Salvation runs for everyone  
So open up the doors and let us sing

I hear the sound march in like thunder  
I see the Spirit bursting out in a mighty flood  
Over everyone  
I hear the sound of sons and daughters  
I see the old dream wild in young imagining  
Young and old will dream  
I hear the sound of earth's surrender  
Wonders above and signs below for all to see  
We have been set free so open up the doors and sing

If you've been set free, lift your voice and sing  
If you have the love, now's the time to use it

Salvation runs for everyone  
So open up the doors and let us sing  
Open up the doors and let us sing  
We've been redeemed, we've been set free  
The time has come, the fight is won  
The future marches in and calls us free  
Open up the doors and let us sing  
We've been redeemed, we've been set free  
The time has come, the fight is won  
The future marches in and calls us free  
Lift up your voice and sing

Salvation runs for everyone  
So open up the doors and let us sing  
The time has come, the fight is won  
The future marches in and calls us free
