

# Heartache Every Moment

HIM

From lashes to ashes  
And from lust to dust  
In your sweetest torment  
I'm lost  
And no heaven can help us  
Ready, willing and able  
To lose it all  
For a kiss so fatal  
And so warm

Oh it's heartache every moment  
From the start 'til the end  
It's heartache every moment  
With you  
Deeper into our heavenly suffering  
Our fragile souls are falling  
It's heartache every moment  
Baby with you

And we sense the danger  
But don't wanna give up  
'Cause there's no smile of an angel  
Without the wrath of god

Oh it's heartache every moment  
From the start 'til the end  
It's heartache every moment  
With you  
Deeper into our heavenly suffering  
Our fragile souls are falling  
It's heartache every moment  
Baby with you  
My darling with you

From lashes to ashes  
And from lust to dust  
In your sweetest torment  
I am lost  
And we sense the danger  
But don't wanna give up

Oh it's heartache every moment  
From the start 'til the end  
It's heartache every moment  
With you  
Deeper into our heavenly suffering  
Our fragile souls are falling  
It's heartache every moment with you  
That's right
