

I Love You

HIM

Can't you see my darling
That the harder I try
The more we grow apart
Please believe me
The sweeter the kiss
The colder turn your arms
And the colder grows your heart
And baby more I love you

I see it in your eyes
I feel it in your touch
I taste it from your lips
And baby more I love you

I see it in your eyes
I feel it in your touch
And baby more I love you

Tonight my darling
The closer I get
The more you're out of love
Don't you feel it
The colder your touch
The more it turns me on
And the faster beats my heart
Baby more I love you

I see it in your eyes
I feel it in your touch
I taste it from your lips
And baby more I love you

I see it in your eyes
I feel it in your touch
And baby more I love you

Tonight my darling
The harder I try
The more we grow apart
Don't you feel it
The sweeter the kiss
The colder turn your arms
And the colder grows your heart
And the more it turns me on
Baby more I love you

I see it in your eyes
I feel it in your touch
I taste it from your lips
And baby more I love you

I see it in your eyes
I feel it in your touch
And baby more I love you

And baby more I love you
And baby more I love you
