

Love Without Tears

HIM

As the light across the room flickers
It's dying song waiting for a
Reason to keep going on on
The sweetest wine has now turned bitter
By these thoughts
So I wonder
The darker my home

I should have known
All along the love without tears
Just a story told to keep us hanging on
In the cold all along baby in fear I'd sing
Love without tears
Love without tears

A Ghost reside in here
A boy who can't let go
Or take no for an answer
Crying his home

I should have known
All along the love without tears
Just a story told to keep us hanging on
In the cold all along baby in fear I'd sing
Love without tears
Love without tears
Go on and
Prove me wrong

I should have known
All along the love without tears
Just a story told to keep us hanging on
In the cold all along baby in fear I'd sing
Love without tears
Love without tears
Go on and prove me wrong
Love without tears
Love without tears
Please let me
Be someone
