

## The Foreboding Sense of Impending Happiness

HIM

By your heartstrings I am hanging from a dream  
Gently swinging in the warm autumn breeze

Come look at the scars  
Smother a heart, opening up  
Look at the scars  
Smother a heart, opening up no more

Tip toeing along a strand of your hair suspended between  
These thoughts and actions miles above reality

Come look at the scars  
Smother a heart, opening up  
Look at the scars  
Smother a heart, opening up

Come look at the scars  
Smother a heart, opening up  
Look at the scars  
Smother a heart, opening up  
look at the scars  
Smother a heart, opening up  
Look at the scars  
Smother a heart, opening up  
(look at the scars)  
Opening up  
Opening up  
Opening up  
Look at the Scars  
You open me up  
open me up  
Smother a heart  
opening up  
opening up  
Look at the scars  
You open me up  
open me up  
open me up  
(Look at the scars)  
(Smother a heart)  
(Opening up)
