

Pestilence

Himsa

Semblance at auction, the belly of the beast
Target implied from tooth and nail deployment
Institution of youth culture self contained
Strategy of dictation read and refined

Calculations come full circle
So move away from the light
Live and learn the value of vice
Pesilence you're all afflicted

It owns you like it owns new dawns and
Changelings never stop changing
It's sole purpose for power
Addiction is cunning so bite the hand that feeds

The want is calling mutinying imagery
There is no answer to the living dead
Possessing privilege from law laid down
It's all been said before

Byproduct for ethos and slogan, create and consume
And then run like thieves it's all been said before
Turn out the light - it's striking
