How Long

Why'd you go and break what's already broken I try to take a breath but I'm already choking How long till this goes away I try to remember to forget you But I break down every time I do It's left me less than zero Beat down and bruised I can't see him with you Why'd you go and break what's already broken I try to take a breath but I'm already choking Cause everywhere I look I can see how you hold him How long till this goes away

I can't seem to get my heart over you Cause you creep into everything I do And now I'm dying to know How he touches you I can't see him with you Why'd you go and break what's already broken I try to take a breath but I'm already choking Cause everywhere I look I can see how you hold him How long till this goes away How long till this goes away She said she wants to be friends I took a big step back She said She said She said she's sorry With one finger I said fuck that

I can tell you're lying when your lips move Cause of one lie it's not me it's you It's left me less than zero Beat down and bruised I can't see him with you Why'd you go and break what's already broken I try to take a breath but I'm already choking Cause everywhere I look I can see how you hold him How long till this goes away Why'd you go and break what's already broken I try to take a breath but I'm already choking Cause everywhere I look I can see how you hold him How long till this goes away How long till this goes away

She said she wants to be friends I took a big step back She said She said she's sorry With one finger With one finger I said fuck that
