## **Last Kiss Goodbye**

## Hinder

It's calming down outside, another lonely night You said you were just going out with your friends I'm waiting up this time, I hope you didn't lie It never used to be like this way back when

I never know where you're at Another train off the tracks And I don't wanna live like that, no

When you walked in so damn late What the hell was I supposed to think When you've had too much to drink And you're really looking guilty

When you wouldn't even look at me There's only one thing it could be You were with him all this time Here's one last kiss goodbye

No more alibis, no more little lies You've broken my trust and it can't be fixed I should've seen the signs, should've recognized The way your lips looked like they'd been kissed

How'd we end up like that Another train off the tracks It always hurts looking back now

When you walked in so damn late What the hell was I supposed to think When you've had too much to drink And you're really looking guilty

When you wouldn't even look at me There's only one thing it could be You were with him all this time Here's one last kiss goodbye

Another lesson learned in life And I keep asking myself why

How'd we end up like that Another train off the tracks It always hurts looking back now

When you walked in so damn late What the hell was I supposed to think When you've had too much to drink And you're really looking guilty

When you wouldn't even look at me There's only one thing it could be You were with him all this time Here's one last kiss goodbye

When you walked in so damn late What the hell was I supposed to think

When you've had too much to drink And you're really looking guilty

When you wouldn't even look at me There's only one thing it could be You were with him all this time Here's one last kiss goodbye
