

# Loaded and Alone

Hinder

Just a kid just a fool  
Always trying to play it so cool  
So he did what he knew  
He left home and he dropped out of school

He wanted fame fame fame even just a little bit  
A shame shame shame he would sell his soul for it  
Even changed his name never gonna get it back now

He's got money but he's way off track  
So lonely that it makes him think back  
To his family and his friends and  
The lady he left back home  
He's loaded and alone  
Loaded and alone Yeah!...

Still a kid still a fool  
Still trying to break all the rules  
A big house with too many rooms  
And an ego to go with it too

He got his fame fame fame more than just a little bit  
A shame shame shame that he sold his soul for it  
He changed his name never gonna get it back now

He's got money but he's way off track  
So lonely that it makes him think back  
To his family and his friends and  
The lady he left back home  
He's loaded and alone

He got his fame fame fame  
Such a shame shame shame

He's got money but he's way off track  
So lonely that it makes him think back  
To his family and his friends and  
The lady he left back home back home

He's got money but he's way off track  
So lonely that it makes him think back  
To his family and his friends and  
The lady he left back home yeah  
He's loaded and alone  
loaded and alone yeah  
hes loaded and alone  
loaded and alone yeah

He wanted fame fame fame  
its such a shame shame shame  
he got his fame fame fame  
its such a shame shame shame yeah

Lonely lonely alone
