

# Put That Record On

Hinder

By the time that the Stones came on  
We were stoned out of our minds  
I know it's only rock n' roll  
But it's the soundtrack of our lives  
No matter how crazy life gets  
I can feel right at home sweet home  
Every time I put that record on  
The first time I got a whole lotta love  
I wanted a whole lot more  
In the back seat baby made me feel like maybe  
We were knockin' on Heaven's door  
And "Walk This Way" still to this day  
Makes me wanna drink all night long  
Every time I put that record on

(Come on, come on)  
Turn, turn, turn it up loud  
Light you one up and pass it around  
The song remains the same as life goes on  
(And on, and on)  
Turn, turn, turn the page  
Back to that first time and place  
When you felt like you were living in that song  
And put that record on

Life's been a crazy train  
Barely kept in on the tracks  
If you think it's a shame that I act this way  
Blame it on "Back in Black"  
I'm glad I did everything I did  
And I forget what I've done wrong  
Every time I put that record on

(Come on, yeah)  
Turn, turn, turn it up loud  
Light you one up and pass it around  
The song remains the same as life goes on  
(And on, and on)  
Turn, turn, turn the page  
Back to that first time and place  
When you felt like you were living in that song  
And put that record on  
And let it play, and take it back to yesterday

(Come on, better sing it now)  
Turn, turn, turn it up loud  
Light you one up and pass it around  
The song remains the same as life goes on  
(And on, and on)  
Turn, turn, turn the page  
Back to that first time and place  
When you felt like you were living in that song  
And put that record on

Put that record on  
Put that record on  
On and on
