# Use Me

**Hinder**

Yeah, alright now, on the top, top, top

She wouldn't spit on me if I was on fire
She says she loves me but I know she's a liar
The sex is good but God, she's got no desire
That's alright, she's taking me home tonight

She's kind of cold but yet she's hot on the outside
Last night got nasty and I'm still kind of tongue tied
I hate to say it but she brings out my sick side
That's alright, she's taking me home tonight

She's got whole lot of love
(Anyway you want it)
But it's never enough
(Finish what you started)

Take me to heaven above
(To leave me brokenhearted)
But I won't be a fool and fight it
She's gonna use me but I like it, yeah, yeah

I bet she's wondering if I'm worth her while
She's judge and jury and she's got me on trial
But I ain't sweating 'cause I'm first on the speed dial
Yeah, that's right, she's taking me home tonight

She always leaves and makes me feel kind of sleazy
It's kind of cool because she already pleased me
I'm lying here just thinking this is too easy
Yeah, that's right, she's taking me home tonight

She's got a whole lot of love
(Anyway you want it)
But it's never enough
(Finish what you started)

Take me to heaven above
(To leave me brokenhearted)
But I won't be a fool and fight it

She's got a whole lot of love
(Anyway you need it)
But I've run out of luck
(Now she says she's leavin')

Leaving me in the dust
(But that's okay, we're leavin')
But I won't be a fool and fight it
She's gonna use me but I like it
(Like it)
She's gonna use me but I like it, yeah, yeah

I think I'm gonna go with the safe bet this time

She's got a whole lot of love
(Anyway you want it)

But it's never enough
(Finish what you started)

Take me to heaven above
(To leave me brokenhearted)
But I won't be a fool and fight it

She's got a whole lot of love
(Anyway you need it)
But I've run out of luck
(Now she says she's leavin')

Leaving me in the dust
(But that's okay, we're leavin')
But I won't be a fool and fight it
And darling, I just can't deny it

Because you use me and I like it
(Like it)
Because you use me and I like it
(Like it)

Yeah, yeah, like it
(Like it)
Because you use me and I like it
(Like it)
Yeah, yeah
