

Please Don't Close Your Eyes

Hint

Please take a breath from me again
Show the world this wake should end
Oh God, you must be mistaken,
The walls of heaven are shaking
Don't let them cry, let angels fly

Please don't close your eyes
'Cos I can't say goodbye to you
Eternal life seems so far away
But I promise you I'll try

Like a mother to her son
I'll nurse the wounds that struck you down
Just lift up your head, come on, get up off your bed
Show me a sign that you're still alive

I believe you're here in my heart
Good souls can't go too far away

Eternal life seems so far away....
But I believe you're here in my heart
