

# Bombs Of Death

Hirax

The feeling of fear  
Death is near  
This will be the last war  
Politician out of control  
Play deadly games with our lives

Bombs of death it's over drop from the sky  
Nuclear war get ready prepare to die

No more love full of hate  
This world is doomed to end  
Judgment day soon will come  
Dividing the good from the bad

Nuclear war dust in the sky  
The holocaust has begun  
Women and children and men will die  
They'll be no one left to fight

No one will live to survive  
Life will not exist  
Women and children and men will die  
They'll be no one left to fight
