Bombs Of Death

Hirax

The feeling of fear
Death is near
This will be the last war
Politician out of control
Play deadly games with our lives

Bombs of death it's over drop from the sky Nuclear war get ready prepare to die

No more love full of hate This world is doomed to end Judgment day soon will come Dividing the good from the bad

Nuclear war dust in the sky
The holocaust has begun
Women and children and men will die
They'll be no one left to fight

No one will live to survive Life will not exist Women and children and men will die They'll be no one left to fight
