## GO!!

The speed is too fast, the G's are too strong Nobody could withstand the force, Dead on impact, never felt a thing Crushed like a roach on the floor, Nobody is safe upon collision Big money hides the truth from us all Unsafe with no testing, rigged up to breakdown Blood on their hands, they will fall!!! BROKEN NECK, Concrete and steel Corporations make money from the dead. Millions of bodies, people die every year. Neglect they don't care, it's a sham
