

The World Will Burn

Hirax

The six days of fire, the Roman empire,
burned July A.D.
The torches of Nero, the villain, the hero
The fire spread quick through the land

The world will burn, suffer the world
The world will burn, suffer the world

Set the blaze, Paris in flames
Inferno, Christians sentenced to death
The great fire of Rome, lambent flame
He'll breath damnation released

The world will burn, suffer the world
The world will burn, suffer the world
