

## Unleash The Dogs Of War

Hirax

Masters of destruction, in for the kill  
Dismantle their enemies, at their will  
Hammer smash! Pounding nails!  
Invaders attack! Friends and foes!

War gods have risen  
Armageddon has begun, wrath of evil, burns like the sun!

Unleash the dogs of war  
Open the gates!

Born in Sodom, three thousand years ago  
Dark lords of thunder, imprisoned down below  
From the belly of the devil, from the breast of sin retribution  
is coming,  
Bow to the iron dogs

War gods have risen  
Armageddon has begun, wrath of evil, burns like the sun!

Angels descending, the battle is commencing

Forever immortal ? killing machines, soldiers of death  
Masters of destruction, in for the kill  
Dismantle their enemies, at their will

Hammer Smash! Pounding nails!  
Invaders attack! Friends and foes!

War gods have risen  
Armageddon has begun, wrath of evil, burns like the sun!
