

Fading Blues

Hird

As I fall asleep
You burn down, down in deep
After all you will know
I was more, I was warm to go

Come to find it's so wrong
But there's hope in us all
I'll fly up, I'll stand tall
Over you, over you
Over you

As I fall asleep
You burn down, down in deep
After all you will know
I was more, I was warm to go

Come to find it's so wrong
But there's hope in us all
I'll stand up, I'll stand tall
Over you, over you
Over you, over you
