

Sorry For Killing The Spirit

His Statue Falls

We won't stop until the day
We are dancing on their graves
With that passion in our eyes
That keeps us so alive

We won't stop until the day
We are dancing on their graves
With that passion in our eyes
That keeps us so alive

Did you expect
To see we're still around
Did you believe
That this was everything we had to give
So let me say
Failing is okay
Everybody needs to know what's wrong
To know what's real

We won't stop until the day
We are dancing on their graves
With that passion in our eyes
That keeps us so alive

We won't stop until the day
We are dancing on their graves
With that passion in our eyes
That keeps us so alive

I don't waste my time
I leave this mess behind
You can not kill what you did not create
For real it's far too late
So let me say
Failing is okay
Everybody needs to know what's wrong
To know what's real

We won't stop until the day
We are dancing on their graves
With that passion in our eyes
That keeps us so alive

We won't stop until the day
We are dancing on their graves
With that passion in our eyes
That keeps us so alive
