

Float Through Me

Hit the Lights

I awake out of place
Don't know where I've been
Last thing I remember an accident
Passed through your hands
My feet become anchors where I stand
You just float through me

Am I a ghost or am I just something new
That you see right through
Am I a ghost?
Is heaven just make believe?
Cause you're always out of reach

My body's gone but my soul it still remains
Can't sleep
Still I dream that you call my name
I sing to you
Every night, I swear I do
You just float through me

Am I a ghost or am I just something new
That you see right through
Am I a ghost?
Is heaven just make believe?
Cause you're always out of reach

Sing under your floor boards late at night
Drift into the morning light
Just float through me
Float through me
Float through me

Am I a ghost or am I just something new
That you see right through
Am I a ghost?
Is heaven just make believe?
Cause you're always out of reach
Am I a ghost or am I just something new?
Am I a ghost?
Am I a ghost?
Am I a ghost?
Is heaven not meant for me?
Cause you're always out of reach
