

Coercion through public consumption

Hit The Switch

The rights of passage were granted by the Catholic Church,
And those who entered into roam,
Began the holocaust.

With new advancements came war made chemicals,
Leaving the mind just meek and passive enough,
Now they got you drinking from the cup.

They got their means to shut you up,
Science adapted from the front,
They all get rich we all get fucked,

Our enemies are of the clothe and reek of corporate faith and greed,

The God fearing disgraced humanity.
