

## One Morning In May

Hoagy Carmichael

One morning in May, don't forget, dear  
That one wonderful day when we met, dear  
The world over was blue clover  
And hearts carefree and gay

One morning in May, oh, the rapture  
Tonight darling, I pray to recapture  
Just one hour, just one flower  
From love's faded bouquet

Kisses that came with the flame of springtime  
Burning your name in my heart  
Precious to me like a rosary  
Now that we're apart

One morning in May to remember  
The love smolders away to an ember  
And dreams perish, we'll still cherish  
That one, one morning in May

The world over was blue clover  
And hearts carefree and gay

One hour, just one flower  
From loves faded bouquet

Kisses that came with the flame of springtime  
Burning your name in my heart  
They're so precious to me like a rosary  
Now that we're apart

One morning in May to remember  
The love smolders away to an ember  
And dreams perish, we'll still cherish  
That one, one morning in May
