

Dog Eat Dog

Hocico

"Todas estas personas civilizadas se comeran asi mismas,
no soy un monstruo solo se quienes son..."

Welcome to the real world come and fight

You come and lick my fingers, you're walking by my side
Learning to roll over but don't know how to bite
Are you made of dreams? Distorted reality
Tell me why you are dying?
Barking without reason you're playing your old tricks
What the fuck you are saying? You are begging for release

Come and lick my fingers, go and fetch the ball
You look funny banging your head against the wall
Are you feeling real or are you feeling fake?
Just quit playing dead
You're living in a movie, you're playing with your toys
Now look in the mirror your ego's been destroyed
Blinded by ambition you're cloning someone else
It's a dog-eat-dog world, no matter what you say, dog eat dog!

Dog eat dog come and fight
Dog eat dog just fight or die
You all rain dogs wanna be me
But I'm the dog you will never be

Dog eat dog come and bite
Dog eat dog just fight or die
You all bastards wanna be me
But I'm the dog you will never be

"No hables como uno ellos no eres asi aunque quisieras serlo verdad, para el
los solo eres un monstruo..."

Dog eat dog, are you playing dead?

Dog eat dog come and fight
Dog eat dog just fight or die
You all rain dogs wanna be me
But I'm the dog you will never be

Dog eat Dog

Dog eat dog come and fight
Dog eat dog just fight or die
You all rain dogs wanna be me
But I'm the dog you will never be

Dog eat dog come and bite
Dog eat dog just fight or die
You all bastards wanna be me
But I'm the dog you will never be
