

## Sad Scorn

Hocico

Human reason doesn't exist  
empty bodies, empty minds  
damned mankind can't resist anymore  
all these diseases spread over the world.

Mentally hasn't changed  
sadness is marked on their face  
how can people be different?  
the answer doesn't exist.

The rules have broken men eat men  
the hunger of their souls can't be satisfied.

Looking for power, quieting the weak  
killing life.

All of them were born deaf and dumb  
closed minds.

Sadness and desolation have been always  
in their hearts.

Human community has created  
an empire of hate and pride.

Poor mankind they are wrong.  
Poor mankind they are alone.
