

# Erase

Hodgy Beats

[Hook: Hodgy Beats]

Every time I hear your name  
Every time I see your face  
I no longer wanna feel this pain  
I wish it would all erase  
Erase, erase, I wish it would all erase  
I no longer wanna feel this pain  
I wish it would all erase

[Verse 1:]

Erase us as if, it was written with a pencil  
Erase the memories which are present in my mental  
Erase your inbox, the flowers that I sent you  
Erase the agreements, our agreements are resentful  
Say goodbye I'll see you next life time  
Cause you and I freeze now on my life line  
Say goodbye since we can't come to get along  
Or I'll say goodbye, so long  
The Longest Yard is how we prolong  
And now I feel like Mama Kush singing so gone  
I never meant to bring you any trouble  
Dug myself in the hole and laid in it with my shovel  
The truth come to surface when you brush off the rubble  
So I bite my tongue like I'm strapped with a muzzle  
I struggle with my routes like a wide receiver in a huddle  
Allergic to the world, world boy in the bubble

[Hook:]

Every time I hear your name  
Every time I see your face  
I no longer wanna feel this pain  
I wish it would all erase  
Erase, erase, I wish it would all erase  
I no longer wanna feel this pain  
I wish it would all erase

[Verse 2:]

Love beat me up, I wonder if you're sore yet  
Fire missiles and bombs at each other like we warheads  
Jay said life is but a beach chair  
When a female can leave you like Steven McNair  
I got 99 problems and a bitch ain't one  
She gotta hundred problems with her pistol gun  
Stimulate a drop top convertibles, I'm roofless  
I feel like Eminem I just might lose it  
I'm in the chamber like a bullet of a ratchet  
Got my licensed camera but I never watch my actions  
Split the pie, divide us up in fractions  
Caught you snooping, your heels ain't got traction  
No patrolling grey goose when I'm love drunk  
No patrolling grey goose but I was drunk  
No return policy, no return sale  
The details of a difficult female

[Hook:]

Every time I hear your name

Every time I see your face  
I no longer wanna feel this pain  
I wish it would all erase  
Erase, erase, I wish it would all erase  
I no longer wanna feel this pain  
I wish it would all erase

Erase out my memories, erase out my memories, burning  
pictures...

Erase out my memories, go ahead... erase out my  
memories

I wish it'd all erase, I wish it'd all erase

I wish it'd all erase, like it never ever took place
