

# This Is My Life

Hodgy Beats

[Intro:]

Is this thing on?

Alright, cool

[Verse 1:]

Three years ago, I was a freshman  
Coming in the hostel of the game like a veteran  
You had to dot my eyes good with letters in  
Girls had my name on the left of their lettermans  
And, yeah I had a little fee  
What she didn't know was that I had about three  
I wanna come to them, nigga they come to me  
Hodgy Beats was steppin on those wannabes  
Niggas would copy, girls would jock me  
They though I was cocky, lil' nigga not even a jocky  
Skinny niggas ride, fuck being stocky  
The haters I was chalking, but they wouldn't stop me  
But fooling when I wanted to, foolin when I wanted to  
Doing what I wanted to, they drooling when I'm coming  
through  
When the game fronting that's not gon' stop from doing  
what I wanna do I do what I wanna do

[Hook:]

This is my life, I'm gonna live it right, gonna live it  
right  
This is my past, let you see through it just like  
glass, just like glass  
This is my life, I'm gonna live it right, gonna live it  
right  
This is my past, let you see through it just like  
glass, this is my life

[Verse 2:]

This here Hodgy Q, and he's a rapper  
The crap on your lap leave your spot with laughter  
Break niggas down on the fact  
And when they wanted to act, he backed it up  
But couldn't keep his tracks up  
Remember that day, on that bus? when he cussed him out?  
When they thought he roughed it out?  
Kids were watching like they were scouts  
He's special in my eyes, but niggas had a doubt  
His girl told him that until she found out  
He had another chick, house and a couch with swagger on  
the mouth  
She went down south  
He had a lil' ring around his finger, a girlfriend and  
a spouse  
So he wasn't committed to a youthful commitment  
She wasn't with it  
So she told him to get it  
Gone, he ain't wrong  
She got left right, where she big mon  
And that's a true story

[Hook:]

This is my life, I'm gonna live it right, gonna live it  
right  
This is my past, let you see through it just like  
glass, just like glass  
This is my life, I'm gonna live it right, gonna live it  
right  
This is my past, let you see through it just like  
glass, this is my life
