

Loser Dust

Hole

You are beautiful, you are glorious
Now you're covered in loser dust
You are fabulous, you are gorgeous
Now you're covered in loser dust
And all the things I used to trust, yeah
All the things I'm about to crush
Your youth is gone, it's turned to rust
It's all covered in loser dust
Hey I loathe every inch of you
You're going down for what you love, hey
Every single particle you're going down for your loser dust
All the things you used to trust you're going down
I'm burnt out, I'm furious and look at you, you're embarrassing
us
Descend, descend and go you must
Isolate the prize, give it one big flush
It's indiscreet, omnivorous
We won't call you and don't call us
And all that's sick with gloat and lust
And do call me I'm so serious
It's not an image it's just a way
You're going down for your final crush
Hey, nothing here can stop you with you're going down for your
loser dust
Hey, I can't wait to see you go; you're going down for your los
er dust
Hey, show me one thing I didn't know, you're going down...
Think fast baby, what is the rush?
The very thing you would never trust
The very thing you would never touch
It's all covered in loser dust
These women all around, obsessive cunts, file under miscellaneo
us
They're starving and carnivorous
I mustn't touch what I want so much
You, you make me nervous
You make me drunk
Do you have to grovel so very much?
It's so unfair, it's so unjust, it's just another witch-hunt
Broken, shattered, busted, yeah, you're going down for what you
love
Hey, all the death it's just good, yeah
You're going down for your loser dust
Hey, oh just die in public babe
You're going down for your loser dust
Hey, in you lays a gutter yeah; you're going down for your lose
r dust
Hey, we can't wait to see you go, you're going down...
