

Turn It Up

Holiday Parade

Back to the beach where we wasted our days
Back to the days when the radio played
The kind of songs that made us shake
We turn, turn it up
We turn, turn it up

I used to stare at the stars everyday
The boulevard to my dreams of L.A.
I used to stop and hope for change
We turn, turn it up
We turn, turn it up

You say, we run around in circles baby all day
Waiting for the moment to come
I think if love is like a reflex darling
Then this is how I give you a reason to stay

I met a girl with a song in her head
The summer nights that we spent in her bed
I would be nowhere else instead
We turn, turn it up
We turn, turn it up

Turn your back to the day that we drove
A hidden place by the sea that you loved
I feel it in my bones
We turn, turn it up
We turn, turn it up

You say, we run around in circles baby all day
Waiting for the moment to come
I think if love is like a reflex darling
Then this is how I give you a reason to stay
A reason to stay

You say, we run around in circles baby all day
Waiting for the moment to come
I think if love is like a reflex darling
Then this is how I give you a reason to stay

(Back to the beach where we wasted our days,
Back to the days when the radio played)
A reason to stay
(The kind of songs that made us shake,
We turn, turn it up, We turn, turn it up)

We turn, turn it up
We turn, turn it up
All day, all day
Turn, turn it up
Turn, turn it up
And give you a reason to stay

Back to the beach where we wasted our days
Back to the days when the radio played
The kind of songs that made us shake
We turn, turn it up

We turn, turn it up
