

Dandelion Wine

The Hollies

Stoned all the time on dandelion wine
What else can I do
I've been this way everyday
now that we're through

Do I love you
You can bet your life that I do-do-do
Do I love you
I would drink my wine from your sh-sh-shoe

Stoned all the time on dandelion wine
It's all down to on you

I've been this way everyday
thinking of you

Stoned all the time on dandelion wine
What else can I do
I've been this way everyday
now that we're through
