Dandelion Wine

The Hollies

Stoned all the time on dandelion wine What else can I do I've been this way everyday now that we're through

Do I love you You can bet your life that I do-do-do Do I love you I would drink my wine from your sh-sh-shoe

Stoned all the time on dandelion wine It's all down to on you

I've been this way everyday thinking of you

Stoned all the time on dandelion wine What else can I do I've been this way everyday now that we're through
