

## Emotions

The Hollies

What is this feeling, confusing me more and more  
I'm out of control and my body is oh so unsure  
Don't understand what's happened to me  
This is not how it should be  
Everyday the world gets harder to face  
For these loving arms there's no better place

Emotions, running away with me  
Changing me endlessly, affecting my gravity  
Emotions, taking me up and down  
Turning my life around, Stealing my energy  
(Take, keep, holding, feel the gravity,  
Got no energy, changing endlessly)

I search for solutions, no hope for conclusions, I'm torn  
What is this life about, I can't work out why I was born  
Ooh, don't know what is this thought, is the power of thought i  
n me  
It's a strange reaction, but I never felt this way before  
It seems to have a life of its own  
It goes on and on and on

Emotions, running away with me  
Changing me endlessly, affecting my gravity  
Emotions, taking me up and down  
Turning my life around, Stealing my energy  
(Take, keep, holding, feel the gravity,  
Got no energy, changing endlessly)
