Live It Up

The Hollies

We're strong, we're weak, we die
We're straight, we're gay, we're bi
We're black, we're white, but why
To tell the truth we lie
We get so trapped inside our little lives
They disappear before our very eyes

So come on live it up tonight
Live it up tonight, move on
It's time we give it up tonight
Live it up tonight, from now on

We loved, we lost, we tried
Do you say I'm fine 'cos I die
I'm so sick and tired of crying
So tonight it's time we just fly
So now we got so caught up in the deal
We lost the only thing we got that's real

So come on live it up tonight
Live it up tonight, move on
It's time we give it up tonight
Live it up tonight, from now on

Na na na na na na
'Cos we can heal, make it real, can't you feel

And now it hurts so bad to say goodbye
I know my love for you is still alive

So come on live it up tonight
Live it up tonight, move on
It's time we give it up tonight
Live it up tonight, from now on
