

## Mad Professor Blyth

The Hollies

Mad Professor Blyth is working on his pet invention  
to dematerialise himself into the fourth dimension  
He's got his mind set on illusion  
to find the secrets of diffusion  
Conclusion: he disappeared

Tried it on his cat one grey night when it was foggy  
Never got it back Oh what happened to his Moggy  
He's got his mind set on illusion  
to find the secrets of diffusion  
Conclusion: he's disappeared

All the kids around about his neighbourhood  
used to laugh at him and call him names  
Silly old bat freaky four-eyes

sort of things they used to shout  
He can't hear them now

He's disappeared

Colleagues at the lab  
they all thought that he was crazy  
Don't know where he's at  
His formulas to them are hazy

He had his mind set on illusion  
He found the secrets of diffusion  
Conclusion: he's disappeared
