

## Set Me Free

The Hollies

Walking down the street  
Standing looking at me  
If you don't wanna know me  
How happy I will be  
Don't cross over the street to me  
If you don't want my love  
Set me free

I see you walking by  
Love light in your eye  
I just remember all those lies  
So don't cross over the street to me  
If you don't want my love set me free

Baby can't you leave me alone  
Baby why don't you go on home  
Baby don't you know that we are through  
I don't need your love so set me free

Why don't you realise  
That you and I are through  
Every day I see you make me blue  
So don't cross over the street to me  
If you don't want my love set me free  
If you don't want my love set me free  
If you don't want my love set me free
