

# Shine On Me

The Hollies

Look at us, we've come so far  
Every road travelled says who we are  
Like a tide, we rise and fall  
We sail on, through the storm,

So many changes in my life  
Every precious moment has a sacrifice  
There were times when I stood alone  
I found the strength to carry on

And when I thought the walls were closing in around me  
Oh baby you were my fight

I was standing in the dark waiting for the light to shine on me  
When you came into my life like a thousand angels watching over me  
Well I have nowhere left to go  
And I can't take it any more  
You were right there in front of me  
Now I'm holding out my heart, giving all I've got  
'Cos you're part of me, let it shine on me

In a time where worlds collide  
So many teardrops from a strangers eyes  
There's an answer inside of you  
Close your eyes, see the truth

Just when you think the walls are closing in around you  
Oh baby I'll be your fight

I was standing in the dark waiting for the light to shine on me  
When you came into my life like a thousand angels watching over me  
Well I have nowhere left to go  
And I can't take it any more  
You were right there in front of me  
Now I'm holding out my heart, giving all I've got  
'Cos you're part of me, let it shine on me

You don't need to hide in the shadows alone  
All you have to do is stand up, you're not on your own  
Take a look around you babe

Well I have nowhere left to go  
And I can't take it any more  
You were right there in front of me  
I was standing in the dark waiting for the light to shine on me  
When you came into my life like a thousand angels watching over me

Let it shine on me

I was standing in the dark waiting for the light to shine on me  
When you came into my life like a thousand angels watching over me
