

# So Damn Beautiful

The Hollies

Your'e so damn beautiful tonight  
So how can I make you love me

Well its six am, I'm awake again  
And I can't get you out of my head  
You wore your dress so tight  
And you danced all night  
You took my heart and left me for dead  
But I don't even know your name  
'Cos you didn't give that much away  
Will I ever feel the same again  
Now I'm caught up in the games you play

You're so damn beautiful tonight  
How Can I make you love me  
I'm so blinded by you're light  
How can I make you see  
That I would walk a thousand miles to  
Find my way to you  
You're so damn beautiful  
And I want to make you mine

I thought I saw you're face  
In a crowded place  
But it was just a shadow of you  
Now I'm all alone waiting by the phone  
I'm hoping that my message got through  
But I didn't even ask your name  
Even though we danced the night away  
Suddenly you left without a trace  
Before I had the chance to say

You're so damn beautiful tonight  
How can I make you love me  
I'm so blinded by you're light  
How can I make you see  
That I would walk a thousand miles to  
Find my way to you  
You're so damn beautiful  
And I want to make you mine

But I don't even know your name  
'Cos you didn't give that much away  
Will I ever feel the same again  
Now I'm caught up in the games you play

You're so damn beautiful tonight  
How can I make you love me  
I'm so blinded by you're light  
How can I make you see  
That I would walk a thousand miles to  
Find my way to you  
You're so damn beautiful  
And I want to make you mine

Make you see  
I just want to make you love me

So damn beautiful  
I don't know your name  
So damn beautiful  
You drive me crazy  
So damn beautiful
