

# Something Ain't Right

The Hollies

1. Something  
Something ain't right  
Something  
Something ain't right

Feeling kind of low inside  
Longing to be by your side  
See you there before my eyes  
This love I feel has no disguise

But what's in a love when you feel so denied  
I can't count all the times I've tried

R: Something ain't right  
But I'm never gonna let that something  
Make me stop without a fight  
No something ain't right  
And it's been on my mind  
Just a little too much  
And bringing me down  
Something  
Something ain't right  
Something  
Something ain't right

2. Sittin' in the dimmest of light  
In my room with a view of the night  
In the time it took for you to call  
You left me holding onto nothing at all  
I'll accept what I can  
But I can't understand  
Why you want it to end this way
