

Suspended Animation

The Hollies

You got me caught up in this dream
Can't see the forest for the trees
My doctor says I'm wasting my life away
I'm dying for a girl who just wants to play
And still I'm begging baby
Won't you take me please

They say you can never rise above your station
But girl you've got me hanging in suspended animation

You're always screening all my calls
You've got me bouncing off your walls
If love is being patient until the day
I'm never gonna touch noone else again
But first you've gotta let me
Calm you, one time please

They say you can never rise above your station
But girl you've got me hanging in suspended animation

My doctor says I'm wasting my life away
I'm dying for a girl who just wants to play
And still I'm begging baby
Won't you take me please

They say you can never rise above your station
But girl you've got me hanging in suspended animation
