So I want you more
More than thought was here
Was here where you loved me
You loved me without speech
Without speech you take me
Take me into your world
Your world is where I'm safe
I'm safe with only you
With you I'm myself
With you I'm myself

Love are you hearing me?
Hearing me is your gold
Your gold is what I long
I long to be your little girl
The little girl I'm missing
I'm missing my home
My home is where my feet are
My feet are firmly you
Pressed into my love
Pressed into my love
So I want you more
