

# Curious

Holly Valance

Welcome to the great unknown  
Take a journey into the O zone  
Feed your fire, feel the burn  
And I'm learning the thing that you learn  
And I'm sure that you'll be so glad that you came  
Let's play the game  
And discover your potential  
You never know till you let go

There's nothing wrong with being curious  
Adventurous  
Step out of your mind  
If something inside makes you curious  
When you jump right in  
Then free it up  
Initiation begins

This is the end, let's begin  
Lose your fear like you're shedding your skin  
So I'm do all the things that you done  
Nothing's lost when all is won  
And try to write a simple rhyme of spinning round  
Feel the sound  
Before I leave, you ought to know

The more you scream, the faster that you go  
Adventurous  
There's nothing wrong with being curious  
If something inside makes you curious  
Step out of your mind  
Then free it up  
Initiation begins  
Free up your inside  
You're gonna like what you will find  
You're never gonna know until you try

Adventurous  
There's nothing wrong with being curious  
Step out of your mind  
If something inside makes you curious  
Then free it up  
Initiation begins  
There's nothing wrong with being curious

Adventurous  
Step out of your mind  
If something inside makes you curious  
Initiation begins  
Then free it up

When you jump right in  
Adventurous  
There's nothing wrong with being curious  
Step out of your mind  
Then free it up  
If something inside makes you curious  
Initiation begins

When you jump right in
